London Arena PLC
GLOBAL INVESTMENT STRATEGY MANAGEMENT CENTRE

COMPANY FACTSHEET

November 2026

London Arena PLC

GLOBAL INVESTMENT · STRATEGY CENTRE

ABOUT THE COMPANY

London Arena PLC is a UK public limited company that directs large-scale infrastructure, construction, energy, sustainability, critical-minerals and digital-infrastructure investments worldwide, and produces and exports lead and antimony through its group facilities. It operates as a strategy and investment management centre: strategy is set in London, and delivery runs internationally through its group operations and a network of partners — contractors, technology providers and suppliers.

Every engagement is structured before commitment and runs through a single governance framework spanning legal, ESG and financial review. The company does not publish specific project or client identities; engagements are governed by binding non-disclosure agreements.

INVESTMENT SECTORS

Infrastructure
Government and large-scale civil works — motorways, transport and public systems.

Construction
Commercial, industrial and residential development, from structuring to delivery.

Energy
Thermal, solar and renewable generation, alongside fuel supply and procurement.

Sustainability
Carbon reduction, industrial water treatment and biogas — with Carbon Arena, London Arena's carbon management platform.

Critical Minerals & Metals
Lead and antimony — produced at group facilities and exported to industrial buyers worldwide.

Digital Infrastructure
Data centres delivered end to end — with Arena AI, London Arena's enterprise AI platform.

Finance & Investment Management
Capital structuring, raising and management across all six sectors.

OPERATING MODEL

01	02	03	04	05
Identify	**Structure**	**Partner**	**Coordinate**	**Deliver**
Markets and projects worth investing in.	Strategy, capital and risk — set at the centre.	The right partners, brought in for delivery.	A single, direct line between centre and field.	Results delivered against commitments.
